

REMARKS

Reconsideration and allowance are respectfully requested.

Claims 1-20 were previously cancelled in a preliminary amendment, and claims 47-65 were previously withdrawn with traverse in response to a restriction requirement.

In this amendment, claims 34-59, 61, 64 and 65 are cancelled without prejudice.

The Office Action stated that claims 21-33 are allowed.

The withdrawn claims are cancelled without prejudice, except for claims 60, 62 and 63. Each of claims 60, 62 and 63 depends directly or indirectly from allowed claim 21. Accordingly, rejoinder and allowance of withdrawn claims 60, 62 and 63 are respectfully requested, in accordance with MPEP §821.04.

The Office Action rejected claims 34-46 as being rendered obvious by Schlosberg (US 4,161,689) in view of Petrucelli (US 3,962,373). Those claims are cancelled without prejudice.

The Office Action required a drawing. Accordingly, new drawing sheet 1/1 with Figure 1 accompanies this reply. No new matter is added. The drawing is supported, for example, by 2:18-20 and 6:25-36. These sections of the specification are amended to refer to the new Figure 1 and to the reference labels in Figure 1. A new section, Brief Description of the Drawings, is also added to identify Figure 1.

Reconsideration and allowance of the captioned application are requested.

Respectfully submitted,

4 April 2011
